Prosperity.

Mt. Sterling is a prosperous city—evidences can be seen in every department of business. Go with us to our stock pens and view the number of cattle from the many counties in Eastern Kentucky, frequently running as high as 10,000 in a day, and for them is a brisk market as the result of many buyers from various States. With them are hogs, sheep, mules and fancy horses. And there is more white burley tobacco shipped from Mt. Sterling than from any one station in Kentucky. A distributive point for twenty-seven counties of Eastern Kentucky. Our manufacturers of flour are actively engaged the year round and find a market for the large output. Machine shops are always well filled—our taxes are low, and prospects for additional factories are exceedingly flattering. Every man can find employment and the gable of croakers is a thing of the past. Every branch of business is prosperous and the sound of the hammer can be heard in many directions, while new residences and business houses are being constructed. All this is in addition to the completion of the water plant and proposed electric railways. Flattering is the outlook for Mt. Sterling. We must have organization, for with it would come extensions sought which would make Mt. Sterling a high city. Give in the business men's club, now.

"Theodora" or "Her Last Race."

The conscientious effort of several managers, of two months rehearsal and a summer devoted to preparation on the spectacular production of "Theodora" or "Her Last Race," the masterpiece of the world's most famous living playwright, have been rewarded by one of the most sensational triumphs of the decade. Aside from the great hits scored by the elaborate scenic effects and costuming, have assured a handsome recompense for the preliminary labors before the initial performance at the Boston Theatre. The organization, presenting the spectacular drama, numbers over fifty people, and is composed of actors of reputation and merit.

This great show will come to the Opera House soon. Watch for date.

An entirely new phase has developed in China, and it may prove awkward for the United States. The Europeans have agreed to submit to their Governments articles 8 and 9 of the Chinese protocols, which relate to the razing of the forts and the occupation by foreign troops of a line of communication from Peking to the sea. The point is whether countries withdrawing their troops can be represented in settling this matter. If not, the United States would be deprived of all voice as to occupation and might be put out of China altogether.

Information comes from Shanghai that China has refused to sign the Manchuria treaty as demanded by Russia, the time for which expired Tuesday. If Russia keeps her threat negotiations will be broken off. After the cabinet meeting correspondence was made public showing that the United States, under date of March 1, protested to all the Powers against China considering any private territorial or financial arrangements. The protest was also given the Chinese Minister February 19. The United States is prepared to use its moral suasion and influence to prevent the consummation of the secret treaty, but does not seem willing to go farther. Japan alone, having Korea to protect, seems bold enough to openly protest.

Just What We Have.

Take a good, clean, honest business man, one who can make his own business thrive like a green bay tree, one who can whoop up a commercial club or go out and raise a hundred thousand for a public enterprise, one who would be as much at home at the head of a bank or manager of an eleemosynary institution, and he'll make a good Mayor.—Critic.

Genius young men, live men, wise men, sober and discrete in every office within the gift of the people. Neither blats nor slugs, guards should find recognition from any source.

In Trouble.

The President and War Department are greatly embarrassed at the pressure that is being brought to bear upon them for the appointment of young colored men who have served in the volunteer army to Lieutenants in the regular army. Not only have several Northern Congressmen and a Senator or two asked for such appointments, but colored bishops and clergymen have appealed to the President in this regard.

Experience has shown that no matter what the theories of the equality may be, colored men as commanding officers are not satisfactory. There are only four colored regiments in the regular army, and their color causes friction. Every white officer would resent the appointment of colored men to command rank, no matter how well educated or capable they might be.

Americans are known as a dyspeptic people. The extent of this disease may be inferred from the multitude of so-called "medicines" offered as a remedy. They are offered in tablet form and have no value except as palliatives of the immediate effects of dyspepsia. The man who used them may feel better but is surely getting worse. They do not touch the real cause of the disease. Dr. Pierce's Golden Medical Discovery is a medicine specifically prepared to cure diseases of the stomach and organs of digestion and nutrition. It is not made to give temporary relief but to effect permanent cure. In ninety-eight cases out of every hundred it cures perfectly and permanently.

It has cost Dr. Pierce \$25,000 to give away in the last year the copies of his People's Common Sense Medical Adviser, which have been applied for. This book of 1008 pages is sent free on receipt of twenty-one one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

From Washington.

Here is a letter from D. E. Garrison, Tacoma, Washington. We do wish he had written a letter for publication. It would have been a feast of good things to have been enjoyed by the patrons of the Advocate. We hope he will take a rest and give us one of those letters which abound with things new and old pertaining to Washington. Tacoma, Wash., March 20, 1901.

The Advocate, Mt. Sterling, Ky.: GENTLEMEN.—If I had the time I think I could write you a good letter. The impulse is strong upon me but I am overworked. Will return to Olympia April 1 to reside.

Please find \$1 currency for which send paper to Mrs. D. B. Garrison, Olympia.

With the same old love for my Mt. Sterling friends, I am sincerely,

D. B. GARRISON.

The President has pardoned John L. Bosley, who was convicted of embezzling money order funds while postmaster of Paris, Ky.

HORSE AND TRACK.

Lockridge & Foster have sold their fancy saddle horse, Rally, to Jan. Farig, of Tinville, Penn., for \$700. This horse was bought about a year ago in Bath county and was a green horse. He is now considered one of the finest gaited horses that ever left Kentucky. Rally was sold by Mr. John Foster and shows that he certainly knows his business.

Mr. Allen Jones, of North Middle town, sold his fancy combined mare to a Louisville party for \$750.

John R. Gentry 2:04, if recalled all this year, will be raced against Joe Peebles 2:04 only. He will be used extensively in the stud this season.

Andy McDowell, who drove Alex 2:03 and Azote 2:04 in their records, is confident that Borlana can beat The Abbot in a race. "If he was my horse," said McDowell, "I would match him against The Abbot to race at any distance from a panel of fence to forty miles." They say Andy is very anxious to drive the Lawson horses this summer.

Articles of incorporation for the Memphis Trotting Association were filed on Wednesday, March 13, and Seth Griffin immediately commenced work on a new track, steel grandstand and club house, to cost \$200,000. C. K. G. Billings and Frank H. Jones are looking the project, and the plan will be one of the best in the country. Griffin says he has all the facilities for making the track at Memphis the fastest in the United States.

Entries for the Kentucky Futurity, \$21,000, for the year 1901, closed on Friday, March 15 and up to Monday over 1,000 mares had been named, with leaders from the far West set to be heard from. It is expected that there will be more than 1,500, which is a new record since the stake record of 1,484 made in 1900. All entries will be in within the next few days, and it now looks as if the entry list will be a great one ever received.

Denmark is said to have communicated to the United States terms for the sale of the Danish West Indies. The terms are said to be the payment of \$4,000,000, provision that the subjects may elect whether they will remain Danish or become citizens (not subjects) of the United States, and that there shall be free trade between the islands and the United States.

A Twenty Pound Child.

At Nortonville, Ky., March 26, Mrs. Alonzo Williams, wife of the Illinois Central foreman, gave birth to a child that weighed twenty pounds. The child was dead. The mother is a small woman, weighing only 100 pounds.

KILLED THE CONDUCTOR.

Then Brakeman Goodin Leaped From the Train and Returned to Lexington To Surrender.

John Scanlon, freight conductor on the Chesapeake and Ohio road, was shot to death between the hours of 3 and 4 o'clock last Tuesday morning near Pine Grove, by John Goodin, the brakeman on the train. Scanlon was shot five times. Goodin jumped from the train and gave himself up and was taken to Lexington.

The train pulled into Mt. Sterling before Scanlon's body was found, the two men being the only ones in the caboose. The authorities took charge of the corpse. Scanlon was about forty-five years old and lived in Lexington.

AMONG THE RAILWAYS.

Rock Island Will Run Cheap Excursions to Colorado.

The Chicago, Rock Island and Pacific railway, which made a phenomenal success of cheap excursion rates to Colorado last season, has again asked its competitors in the Western and Southwestern Passenger associations to agree upon a series of cheap excursions to and from Denver, Colorado Springs, and Pueblo for the approaching season, on the following basis: Tickets to be sold from Chicago and all points up to Missouri river, June 15, 25, July 16, 23 and 30, Aug. 6, 13, 20 and 27, at a rate of one fare plus \$2, or \$31.50 for the round trip. On July 28 and 9 and Sept. 3 and 10 a rate of \$25 is to be made from Chicago, and \$17 from Missouri river points to the round trip. Intermediate territory will have proportionate rates. Tickets are to be sold from Missouri river points one day later than the dates given above in each case. Proportionate rates will be made from Glenwood Springs, Salt Lake City and Ogden.

A series of East bound excursions is also proposed, tickets to be sold from Colorado common points every Thursday, commencing with June 20 up to and including Sept. 12, at a rate of one fare plus \$2 for the round trip. All tickets will be limited for return passage to Oct. 31. These rates will be tendered connecting lines for basing purposes, which will probably insure a very low basis of rates throughout the United States for these excursions.

The Chicago, Rock Island and Pacific will unquestionably make these rates and arrangements effective, regardless of the action of its competitors, and will run special trains only one night out of ten from Colorado, on the dates named—Chicago Inter Ocean.

Beware of Ointments for Catarrh that Contain Mercury.

As a remedy will surely destroy the sense of smell and ultimately change the whole system when mercurial ointments are used, we should be careful to avoid them. The only safe remedy is the one that is sold by Dr. J. C. Dewitt & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75¢ per bottle. Hall's Family Pills are the best.

It is our pleasure to announce JOHN D. MCINTYRE, of the county of Bath, candidate for the Legislature, of the district composed of the counties of Rowan and Bath, subject to the action of the Democratic party.

NEITHER MONEY

NOR WHISKY.

The candidates for Democratic nomination for Assessor have entered into an agreement pledging that neither they nor their friends will use money or liquors in the campaign. Such a course is in accord with the spirit of good morals. So in earnest are these gentlemen that a forfeiture goes with the agreement.

This action on the part of these candidates is strictly Democratic and is commendable, the will of the people to be observed. Too long has Democracy aped Republican methods, for it is said by the people—good Democrats and moral Republicans—the Democratic party has become contaminated, a question to be pondered.

Kentucky politics must be purified; men must vote as judgment dictates; votes must be counted as cast, and the majorities must rule. This is Democracy, and we have faith that Montgomery county Democracy will purify itself.

The day has dawned when the good people will no longer walk in what is termed political filth.

We must be just in our own ranks and then with opposing parties. Because the Republicans stole the presidency once is no reason why we should do likewise.

It is our pleasure to announce as candidate for the legislature for the district composed of the counties of Rowan and Bath, Hon. John D. McIntyre, of Bath county, Democrat. A Democrat's heritage from his ancestors' spirit, glorying in the man with conviction as the result of logical reasoning. A Democrat because he is an advocate of free government and of the people. A Democrat with equal rights to every individual, rich or poor, with special privileges to none. He is a Simon pure Democrat, honest, industrious and free from the habits that detract from the people who are the great common people. The very kind of a man of whom a constituency would be proud, and one who would not only vote right but would be able to introduce and pass bills that would prove beneficial to our commonwealth. Let his nomination be unanimous.

The Court of Appeals has reversed the verdict in the case of Commonwealth against Cash Powers and James Howard, and hence a new trial is granted them. We were prepared for this and are glad that it is so. A Republican court has returned the case to the lower given their reasons for so doing, and by their action in ignoring the pardons of W. S. Taylor, disclaim any Republican right to the office of Governor. It confirms the legal action of the Democratic party and announces to the world that Wm. Goebel was Governor of Kentucky. That he was slain there is no question; that there was a conspiracy everyone with power to reason believes, and when the testimony and

law is again applied it is our opinion another jury of honest men will find a verdict not materially different from the one reversed.

Agualdo having been captured the next question is what to do with him? Some have suggested bringing him to the United States, where he may teach the people, those in authority, of the minds of his followers that they may know better how to treat them. This may prove a valuable suggestion, judging from the amount of money expended and lives lost. The administration has proved that they know but little about conquering his people. We would say treat the Filipino leader with that same humane kindness as we would any other prisoner of war.

Of a business, active in its various departments much can be said. Every line business has in stock just the articles to meet their trade. These articles are according to style, but very different, and the trade must know what is up to date. We, therefore, find many engaged in designing patterns and making illustrative cuts, that the people may know the article not by name only, but its real style and fit. These patterns and illustrations find their way to the people through the local press. The very different in the varied styles are so described that we not only know them but their value. The firm that can meet the demands of the greatest number must be the most successful.

We have in mind now a firm that handles many specialties. In hats

QUICK COMMUNICATION.

Helps the Public to Materially Influence National Legislation.

"The means of quick communication that exist to-day are developing new phases of influence on legislation," said an old employee of the Senate recently to a Washington Star reporter. "It is surprising to members of the finance and appropriations committees to find how quickly any proposed action discussed by them will be known throughout the country, and how promptly telegrams, either approving or protesting against the measure under contemplation, are sent to them. To-day, it may be, correspondents telegraph their papers that a tax is to be laid on a certain article. That information is printed in the next morning's papers throughout the country, and while the committee is in session later in the day telegrams come in by the score to its members, either protesting against or commending the action. A short time ago at a morning session of the finance committee about 100 telegrams were received by its members bearing on an item of taxation that they were then discussing."

Lighting a Cigar with Ice.

A patent lawyer, who is naturally an ingenious man, was asked by another lawyer, who wanted to light a cigar, for a match. None was forthcoming, so the patent lawyer lifted the cover from the water-cooler, took out a piece of clear ice about one inch thick, whittled it into the shape of a disc, and with the palms of his hands made it two sides convex, thus giving the form of a double convex lens or burning-glass. With it he focused the sun's rays on the end of the cigar, and set it on fire.

New York's Social Settlements.

There are thirty social settlements in New York which are in touch with more than 60,000 people. In the settlement houses are 323 classes and 238 clubs, with a membership of 17,600. Social pursuits are the objects of 102 clubs, while recreational and constructive features are combined in the others. In 25 settlements there are 29 kindergartens with 1,887 children.

CURIOUS REVENGE.

Comes Annually for Attorney Who Once Lost a Law Suit.

For many years a well-known Philadelphia attorney has employed an original method to gain revenge on a large property owner who once defeated him in a lawsuit. It started over the rental of a piece of ground in Second street, says the Philadelphia Record, in what was once the business center of Philadelphia. Under the original contract the lessee of the ground paid his rental in 300 Spanish dollars, but a dozen years ago the owner desired a change in the specifications. For some reason the lessee objected and engaged the attorney in question when the owner brought suit against him and was sustained by the court. Ever since, however, the attorney has employed his revengeful tactics. Before the annual date of payment he sends to Mexico for 300 Spanish dollars, heavy and unwieldy in size. On pay day he waits until after banking hours, when he secures a wheelbarrow and has the load of heavy silver carted to the ground owner. Banks are closed, and the owner is compelled to keep the silver at his own risk. He then brings suit, the attorney opposes him, and, although annually defeated, the latter declares that the fun of it is worth the trouble.

Destruction Wrought by Trains.

A signalman with a turn for natural history has shown once again the extent of the destruction wrought by trains. He has kept a list, which though necessarily not exhaustive is immensely long, of the victims along a stretch of line about three miles. The list includes cats, foxes, dogs, hundreds of rats, hares, rabbits, a cow, a sheep, an adder, a long-eared bat, a hedgehog, and thousands of frogs. Among the birds are a kingfisher, a kestrel hawk, rooks and night-jars, to say nothing of the more familiar species.

SORES AND ULCERS.

Sores and Ulcers never become chronic unless the blood is in poor condition—it is sluggish, weak and unable to throw off the poisons that accumulate in it. The system must be relieved of the unhealthy matter through the skin, and great danger would follow should it be left alone. Blood has been made pure and healthy. Impurities eliminated from the system. S.S.S. begins the cure by first cleansing and invigorating the blood, building up the general health and removing from the system **A CONSTANT DRAIN UPON THE SYSTEM.** When this has been accomplished the discharge gradually ceases, and the sore of ulcer heals. It is the tendency of these old ulcers to grow worse and worse, and eventually to destroy the bones. Local applications, while soothing and to some extent alleviate pain, cannot reach the seat of the trouble. S. S. S. does, and no matter how apparently hopeless your condition, even though your constitution has broken down, it will bring relief when nothing else can. It supplies the rich, pure blood necessary to heal the sore and nourish the debilitated, dis-eased body.

Mr. J. T. Abbott, Lock Box 25, Princeton, Miss., writes: "Six years ago my leg from the knee down was one solid sore. Several physicians treated me and I made no headway. I had to resort to S. S. S. and in a few days the sore began to heal. I used it until it was completely cured. I have been a perfectly well man ever since."

S. S. S. is the only purely vegetable blood purifier known—contains no poisonous minerals to ruin the digestion and add, rather than relieve your suffering. If your flesh does not heal readily when scratched, bruised or cut, your blood is in bad condition, and any ordinary cure is apt to become chronic.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Child Gored by a Cow.

William, the sixteen-months-old infant son of City Clerk Ben Marshall, of Frankfort, had a miraculous escape from death. A vicious cow became infuriated at the child, which wore a red jacket, and attacked it furiously. One of the cow's horns penetrated the child's neck to the hollow, barely missing the wind-pipe.

Monitors! Howards of those quiet robbers at your child's quiet and health. Those sleepless nights and long hours of restless vigil are caused by those terrible enemies of childhood—worms. Drive them out and remove them with Worm-Cream Vermicide. Price 25 cents. Price, Kennedy.

During the disinterment of the bodies of six American marines killed in the siege of Yekim, the Russians were particularly noticeable for their courtesy, detailing whole companies to participate in all the ceremonies.

Pity and Beauty

The most beautiful thing in the world is the baby, all dimples and joy. The most pitiful thing is that same baby, thin and in pain. And the mother does not know that a little fat makes all the difference.

Dimples and joy have gone, and left hollows and fear, the fat, that was comfort and color and curve—all but pity and love—is gone.

The little one gets no fat from her food. There is something wrong; it is either her food or food-milk. She has had no fat for weeks; is living on what she had stored in that plump little body of hers; and that is gone. She is starving for fat; it is death, be quick!

Scott's Emulsion of Cod Liver Oil is the fat she can take; it will save her.

The genuine has this picture on it, take no other. If you have not tried it, send for free sample, its agreeable taste will surprise you.

GREAT STRENGTH OF FISH.

Their Remarkable Agility Remains the Despair of all Scientists.

"The flight of birds has been studied from time out of mind without yielding the first syllable of its secret," said an enthusiastic amateur naturalist of New Orleans to a Times-Democrat man, "but it is not a whit more mysterious than the movement of fish in water. Their speed, their sudden leaps from fixed positions, their abrupt turns in less than their own length, the extraordinary inertia that enables them to swim against tremendous currents—these and a hundred and one other things have been the despair of every investigator. We know that such miracles are performed in some manner by movements of the fins and tail, but in ninety-nine cases out of a hundred those organs are altogether too small to account for the apparent power they develop. In less time than it takes me to tell it a three-inch gold fish in a glass globe will upset every law of dynamics in the text-books. I have tried to do this theoretically impossible. While I was in Washington on my vacation last summer," continued the speaker, "a relative of mine who is a designer in the bureau of naval construction told me that the department experts had made extensive studies of the movements of different fish, with a view to improving the hull lines of torpedoes. He told things that are theoretically impossible. What little data they secured proved useless when applied to working models, showing conclusively that the real secret had eluded the observers. I have a good-sized tank at home, in which I keep a number of small fish, and at different times I have made some curious observations, especially as regards their speed. One of the fish is a young fresh water trout, about five inches long. On several occasions I have watched it with a timing instrument while it was making plunges for flies on the surface of the water. It would approach leisurely at not over six inches to the second, until about half a yard from its prey, and then leap straight for the mark like an arrow from a bow. The intervening distance would be covered in approximately one-tenth of a second. That doesn't sound very remarkable in cold figures, but imagine a steamship jugging along at about five knots an hour, and then, in the twinkling of an eye, increasing its speed to a mile a minute. The feat would be no more astonishing than that performed by my little trout, and what makes the mystery all the greater is the extremely delicate and flexible character of its tail and fins. They seem to offer no purchase worth mentioning against the water. It is as if an ocean liner had a propeller made of gauze; yet, comparatively speaking, it is a comparatively more than the most powerful machinery ever built by man. When Nature gives up the secret, if we ever do, we are apt to see the true culprits in the boat."

NEW TYPE OF ANCHOR.
Disk-Shaped Device Stronger Than the Ancient Fluke.
Marine engineers have succeeded in a new type of anchor which is an application of the water jet to the mushroom anchor. The device consists of a disk of iron from ten inches to two feet in diameter (the latter being sufficient for ships of the largest size) being attached to the anchor chain. The disk has a piece of pipe passing through it, low in the center. When it is desired to anchor a hose is attached to this pipe and a stream of water is sent through the pipe while the disk is being lowered. The stream of water cuts out the bottom from beneath and allows the disk to sink several feet below the surface of the bottom, when the hose is disconnected and withdrawn. The earth immediately settles in over the disk and gives it a holding power greatly in excess of the usual fluke anchor. When it is desired to withdraw the disk the end of the hose is supplied with a ring which slides down over the anchor chain and catches the earth away down to the day down series of jets, thus rendering the disk easy of withdrawal.—Railway and Engineering Review.

We can tell you "what men of fashion will wear" this spring and summer. Ask us.

Prejudice

Is an unreasonable jade, and if you permit her to do so, will rid you a costly, as well as an unprofitable, race. Prejudice, pure and simple, today stands between the men who have their clothes made-to-measure and

AGUINALDO CAPTURED

Gen. Funston the Hero of the Event. Will the War Cause?

A confidential agent of Aguinaldo arrived February 29th, at Panatagan, Northern Luzon, with letters dated January 11, 12, and 14. These letters were from Emilio Aguinaldo, and directed to Benigno Aguinaldo to take command of the Philippine Central Luzon, including the northern Alibon. Aguinaldo also ordered four hundred men to come to him as soon as possible, telling the bearer of these letters to guide the men to where Aguinaldo was. This agent with letters came to the hands of the Americans. An expedition was organized by Gen. Funston who took command, and consisted of Aguinaldo's captured messenger, four insurgent officers and seventy-eight Mariwatas who spoke Tagalog, armed with Mausers and Remingtons, and dressed to represent the insurgents. Funston commanded, accompanied by Captain Hays, Lieutenant Cavazos, Captain Newton, Third Infantry, Lieutenant Hazen, Fourth Cavalry, and Lieutenant Mendenhall, First Infantry. The officers were dressed as American officers and represented prisoners. The expedition sailed from Manila March 6. The Vicksburg landed March 14 on the east coast of Luzon, twenty miles south of Cagayan. The party marched to Cagayan where the Americans never captured the place and the natives were brought in by the Americans. They arrived there, the insurgent officers, ostensibly commanding the expedition, announced that they were on the way to join Aguinaldo between Panatagan and Baler; that they surprised an American surveying party and killed a number, saving five. The Americans and the other Americans as their prisoners.

Funston and others were kept imprisoned for three days, surreptitiously giving orders at night.

On March 22, they reached a point eight miles from Panatagan. They were now to wait it was necessary to send to Aguinaldo's camp for food. Aguinaldo

also dispatched supplies and directed that the American prisoners be kindly treated, but not allowed to enter the town. Aguinaldo sent supplies and had his escort of forty men paraded to extend the proper honor. A short distance from Aguinaldo's quarters the language was discarded, a combat following with the result that two insurgents were killed and eight killed, and one thousand rounds of ammunition were captured, together with Aguinaldo and his two principal officers.

When the firing began Funston assumed command and directed the attack on the house, personally assisting in capturing Aguinaldo. The expedition rested March 24, then marched sixteen miles for five days to Panatagan Bay, where Funston found the Vicksburg, which brought him to Manila.

Since Aguinaldo has been brought to Manila he has been called upon by numerous former Cabinet members and Generals who have surrendered, and all have impressed upon him the utter hopelessness of the insurgent cause. The capture of Aguinaldo has been followed by important surrenders, and as the news becomes known others are expected. Thousands of natives are taking the oath of allegiance in the United States.

In recognition of Gen. Funston's bravery in capturing Aguinaldo the President on Saturday promoted him to Brigadier General of the regular army.

New Trials Granted for Powers and Howard.

On Thursday the Court of Appeals granted a new trial to Caleb Powers and James Howard, convicted of participation in the Goebel assassination. Several in the Howard case was by the whole court, while in the Powers case Judges Hobson, Peruter and Whitte, Democrats, dissented.

The decision in the Powers case holds that the Taylor pardon is void and that the indictment is good; but reverses the case and orders a new trial on the ground of erroneous instructions to the jury and the admission of incompetent testimony.

The Howard case is reversed because of incompetent evidence admitted in the trial and other mistakes.

Howard's case will be called at the April term of court which begins in Frankfurt this week, but it is conceded it will be passed till the fall term. Both Powers and Howard are in jail there.

Fred W. Bassett, representing the Power Grocery Co. of Paris, was in Jackson the past week raking in the orders for his firm. Fred was one of the party who recovered the body of the little girl drowned in the river last Friday, and got thoroughly soaked from head to foot—Jackson Herald.

We have Mr. Bassett's version of the accident resulting in the drowning of the little daughter of Mrs. Margaret Black in the Kennebec River at Jackson. Mr. Bassett was horrified when he saw the boat approach the dam, within the power of the current and a strong wind. He shouted, "don't jump!"—it was a time of great peril and just before going over the dam the child followed by his mother sprang from the boat. Mr. Bassett knew the water was deep and dangerous; he feared not what might await him, but relieving himself of heavy wearing apparel he ran down the embankment and jumped into the water. Mrs. Black's body was seen in the water, and, with assistance, she was rescued—but for three-fourths of an hour, he used every exertion and applied every means to find the child, which had been caught against the dam by suction and was taken from the waters beyond resuscitation. Such screams and grief from a heartbroken mother he had never heard. Thoroughly chilled Mr. Bassett was one of the brave ones of the good citizens of Jackson, where he was properly cared for and suffered no bad result.

Convicted for the Murder of James Bush.

Early in July Howard Wilson and Wm. Stamper, of this county, attempted to arrest Tip Day, near Maribou, Menefee county. In that tragedy Wm. Stamper shot and killed James Bush. Stamper was indicted for murder and his trial began at Frenchburg on Thursday and was concluded on Saturday. The jury found him guilty and sentenced him to the penitentiary for three years.

B. F. Day, of this city, Judge Caudill and J. H. Williams, of Frenchburg, were counsel for him. The Commonwealth was represented by Wm. Young, Commonwealth's Attorney, H. D. Combs and Lon Hovemale, of Frenchburg.

Owners Should Breed Liberally.

The present outlook is that speed horses will reach a price as high as in what we call the "boom days" of the trotter—about five years ago. It is a mistake, however, to compare the so-called boom prices with the prices of to-day. Twenty-five years ago extreme speed was an exceedingly rare that only four or five persons out of our 40,000,000 of people were able to purchase it. It was the extreme rarity that had much to do with the value. In 1867, we had only one Dexter 2:17. In 1890, the Dexter was so common that we have not taken the trouble to count them. As nearly as 1874 we had but one Goldsmith Maid 2:14. In making comparisons of speed values we fail to note the fact that rarely had everything to do with the extreme prices that prevailed in the so-called boom days. Prevailing prices fully justify the opinion that the outlook for the immediate future for the harness horse is brighter than ever before. The road and speed horse, and the show horse are all in fashion, and taxation rules the world. Take our advice and breed liberally in this bright year of the new century. Not only is the demand active and growing at home, but it's growing abroad. In fact, the civilized world is ours. N. country has produced a horse equal to the American trotter. And while they are making our best in Russia, Austria, Germany, England and France, and borrowing our ideas, it will be at least a quarter of a century before they reach our standard. And if there is any one in this great booming land of ours that is secure it is the harness horse—Western Horseman.

Ankle Sprained.

On Monday of last week while Mat C. Clay was on the engine on his company's road leading to the L. & E. road, the water gauge burst. He feared that an explosion would occur or other damage follow, and not noticing that the engine was on a trestle he jumped for safety. He fell about fifteen feet. One ankle was severely sprained and he was otherwise bruised. He is now at home in this city and is improving nicely. He was fortunate in escaping more serious injury. We wish for him a speedy recovery.

The third annual Congress of the Christian churches was held on Tuesday afternoon to Thursday evening at Lexington.

The Congress brought together more than two hundred of the ministers of the Christian church, as well as educators, editors and other laymen. Evolution was considered, in its relation to religion and redemption. The discussions were frank and sharp, but brotherly. The psychology of religious experience was also treated, as well as the question of Christian education. The relation of women to education, to the church and to the club was treated by three papers from prominent women on the last afternoon. Prominent educators and ministers from New York, Chicago, St. Louis, Washington City and other cities were present. Christian Union was a prominent feature. A committee was appointed to take under consideration the best way in which to bring the question of Christian union to the attention of all religious organizations. It was further decided that the committee submit a report to the National Missionary Convention, which meets at Minneapolis next October. The committee consists of A. M. Harvout, of Cincinnati, W. L. Moore of Columbia, Mo., C. L. Loos of Lexington, J. H. Garrison of St. Louis, J. W. Briney of Lexington, J. B. Briney of St. Louis and B. B. Tyler of Denver, Col. The next Congress will meet at Cleveland, O. J. J. Haley of Cynthiaus, was elected president.

AGUSTUS.—Rev Augustus of Ford, Ky., was caught in a belt of Bart & Brabb's planing mill and instantly killed.

OLDHAM.—Mr. O. R. Oldham, of Madison county, died on Saturday as the result of an attack of la grippe, aged 83 years. He was the oldest of his family, the third that has passed away in twelve months. Surviving him are one brother, Squire Abner Oldham, of Lexington, and Mrs. Mary Tipton and Margaret Chenault, of this county. He leaves two sons, Thomas and Charles, and Mrs. Tempy Martin and Nettie Chenault. His burial took place in the family burying ground Sunday afternoon.

STEWART.—On Tuesday afternoon, March 26, 1901, at the home of his sister, Messdames Fred Riddell and R. F. Mastin, in this city, Capt. Jack Stewart died of paralysis. His sickness and return from Hot Springs have been previously given in these columns. The funeral service was conducted at the home on Thursday morning by Messrs. G. C. Abbott and H. D. Clark. The burial was at North Middle town. He was a member of the Episcopal church. He was a native of Bourbon county, having been born there September 30, 1843. He was never married. He fought through the civil war, a gallant Confederate, a member of Col. Cluke's regiment, Morgan's Command. For many years he has been an auctioneer, and as such was known in other States. He had a social, cheery disposition, full of fun, and was a popular man. His third sister, Mrs. Lodusha Gatewood of Louisville, attended the funeral service.

MARRIAGES.

ANNOUNCEMENT.

Mr. John G. Roberts will on April 30 be married to Miss Nora A. Daugherty, daughter of Charles Daugherty of Flemington. Miss Daugherty is a most excellent woman, of Flemington county's best families, and Mr. Roberts is to be congratulated. Mr. Roberts is a man of industry, who has many friends. John is a candidate with Mr. Wright for the Democratic nomination for Assessor and because of the approaching nuptials he can't afford to fail. This may prove an argument to induce another bachelor to cross the line. Because Mr. Roberts goes from home to get married should not be used as an argument against him, that he was not well thought of by the community, that he does not love them. It was to be that he to marry Miss Daugherty and he just cannot help it.

A Splendid Entertainment.

A magnificent crowd greeted Mr. Powers at the Opera House Friday night, and the largest audience of the season showed their flattering appreciation by the marked attention and outbursts of applause that were given him.

There were many enthusiastic, bright-faced children in the audience who were chaperoned on an imaginary trip through New York and Boston. All the historical and beautiful features of these large cities of the East were shown, and in peculiar contrast to these scenes of splendor and the homes of the multi-millionaires, who reside on that aristocratic thoroughfare, Fifth Avenue, were seen the homes of the poverty-stricken thousands, where desolation and want were everywhere present, and the greed and selfishness of mankind are most prominent.

Mr. Powers' lecture was not only entertaining, but highly instructive as well, and gave us as burning truths of the inhumanity of war. During the evening, readings were given from Rites and Rituals, with characteristic ease and expression for which Mr. Powers is famous.

It was the most beautiful entertainment of its kind that we have ever had, and we hope that Mr. Powers will return to Mr. Sterling, he will render a most valuable service.

The First Executions in Manila Under American Rule

The first execution in Manila under American rule took place at Fort Marikina, where two convicts were hanged by the gallows. The gallows were erected on a hillside, and the execution was witnessed by a large number of people. The convicts were executed by hanging, and the execution was carried out with the utmost efficiency.
